Polifix 2

A dazzling professional

When it comes to performance, this weighty ground-mounted machine plays in the top league. Just like the steel housing, the three rotating brushes with an impressive diameter are extremely robust in design and well-suited for continuous use in shopping centres or highly frequented hotels. Unsurpassed top form is also reflected in the options of finishing for the housing: in high-gloss chrome makes, this powerhouse becomes invisible as it mirrors its surroundings, while in 24-carat gold it reflects pure luxury. Rely on a true star.

Brilliant performance in two series:

- *with bar and plastic knob incl. push button*
- *with foot sensor and bow handle in brushed stainless steel for added style*

3 *year warranty*
